The Malcolm Whales Foundation

The Malcolm Whales Foundation is a fundraising cancer charity in memory of Malcolm Whales. Following his death in 2008, to honour Malcolm's memory, Damien his son set out to create a legacy in his name. As a charity TMWF 'takes steps to beat cancer' trying to make a difference to cancer through being active and having fun, alongside challenging our fundraisers physically. The impact the charity has had on the people that have been involved has been incredible. The Foundation is a team that works hard together, once you get involved you are hooked!
